EXTRA-CURRICULAR

UTS Hackathon Event - Team Member

Hackathon UTS Breaking Law Hackathon || 14-15th September 2018

Breaking Law Hackathon is an event that bridges the Law and IT faculties to solve a real world problem in the Banking Industry. The selected topic provided by Westpac and King & Wood Mallesons was to develop an "Intelligent Regulatory Navigator" that provided a database to store the latest legislation around the world.

- Organised team building activities with law students to further understand the pain points in the law industry.
- Conceptualize intranet exclusive to bank institutes and the government entities to access a database amongst regulators around the world.
- Showcased a working prototype and presented to a panel of judges.

UTS Club Executive - Asset Manager

The Longboarding Club || July 2018 - December 2018

- Mentored fellow executives to complete the Treasury audit for the Society.
- Acquired and assessed new and second-hand equipment for members' use in a secure environment.
- Ensured society equipment is maintained and returned after each event.

UTS Club Executive - Treasurer

Japanese Australia Student Society || January 2017 - December 2017

- Managed society assets and funds to efficiently plan and allocate resources in advance for each event.
- Formulated a spreadsheet to help estimate the budget for each event.
- Executed and passed the End of Financial Year audit with a 10% total asset growth.
- Designed and hosted an original event with an extraordinary turnout of over 80 participants.

UTS Club Volunteer - Cultural Exchange Tour Guide

Japanese Australia Student Society || January 2016 - December 2018

- Guided exchange students through UTS campus as a tour guide and organised activities according to their interests.
- Engage with students regularly to provide a friendly and pleasant experience.
